

Climate Action Team

State Government Operations Work Plan

John Blue

Climate Change Program

Climate Action Team: State Government Operations

- State Government Operations Group was described in the AB 32 Scoping Plan
- Tasked with preparing a statewide plan to reduce State government's operational greenhouse gas emissions by 30 percent by 2020.

Climate Action Team: State Government Operations

- Meeting monthly since August.
- Input from DGS, ARB, CEC, DWR, Cal/EPA, OCIO, DTSC, CIWMB, DOF, Transportation Commission.

Climate Action Team: State Government Operations

Proposed Strategy:

- Short-term
 - Low cost
 - Simple implementation
 - Rapid result
- Long-term
 - Require more analysis and resources

Climate Action Team: State Government Operations

- Transportation
- Buildings
- Employee Practices
- Technology
- Measuring progress

Climate Action Team: State Government Operations

Measuring Progress

- Need a comprehensive state emissions inventory
- Significant Challenges:
 - Agencies at different points in process
 - There is discretion within inventory protocol (CCAR/TCR)
- Working with TCR for consistent process

Climate Action Team: State Government Operations

- Proposed Time Frame:
 - Through Jan 2010 accept comments from public
 - March 2010 Draft “sector” proposals due
 - April 2010 Draft plan for review by subgroup
 - May 2010 Public Workshop on Plan
 - June 2010 Work Plan Complete
 - July 2010 Present Work Plan to CAT

Climate Action Team: State Government Operations

- What do we need?
 - CAT support
 - Broad participation from state agencies

Climate Action Team: State Government Operations

- Questions?
