CAT-NIP Strategies

Strategies Overview

1. Develop and Disseminate Information & Guidance.
2. CEQA Guidelines & Land Use Regulatory Tools
3. Williamson Act/Land Use Conservation Incentive Programs & Tools
4. SB 375 Regional Transportation-Related Greenhouse Gas Targets

Strategy One

- 21 Tasks
- Focus on ongoing & planned activities
- Includes strategies from the California Adaptation Plan

Road Map to State Resources

- **Goal:** Compile sustainable community planning guide using existing resources and activities including those in other strategies.

Road Map to State Resources

□ Objectives

- Compile all activities, policies and assistance into one document with links to the original source materials to provide guidance to local government.
- Create a clearinghouse for existing resources and data.
- Identify gaps in data, research and policy that could be addressed by the State.
- Identify potential conflicts in state policies that require reconciliation to be more effectively implemented
